THE MAINS PROBLEM

Why do 80% of Prelims qualifiers fail Mains — despite months of preparation?

UPSC 2024 — From Prelims to Selection

Only 1 in 14 Prelims qualifiers gets finally selected

80%

Aspirants Lack a Focused Notes System

Most students compile notes from 10+ sources — coaching material, newspapers, books — and end up with scattered, unrevised content by Mains time.

The Cost: Weak recall under exam pressure

73%

Guidance from Non-UPSC Mentors

Most coaching faculties have never cleared UPSC themselves. They teach content, but cannot tell you HOW a topper thinks, prioritises, and writes — because they haven't done it.

The Cost: Generic preparation, not exam-ready

68%

No Training in Answer Writing

Students know the content but fail in answer presentation. No one teaches them HOW toppers structure answers, which points to lead with, and how to stand out from thousands of similar answers.

The Cost: Marks lost despite knowing the answer

61%

No Paper-Wise GS Strategy

Aspirants prepare all GS papers the same way — reading books and making notes. But each paper demands a distinct approach that only someone who's cracked it can truly explain.

The Cost: Effort without direction
